

Session B:

From Strange Creatures to Space

Exploring the Wonderful Mysteries of the World

This session will combine the exploration of strange creatures on Earth, like the Venus flytrap, strangler fig, black dragonfish, vampire bats, and black widow spiders, with the forefront of Space research. Students will make art and science projects and will have the opportunity to submit artwork to a design competition for a patch that will fly to the International Space Station, accompanying St. Petersburg College's Space Flight Student Experiment.

@NORTHSHORE

Times: Mondays, 3 to 4:30 PM

Dates: 10/19, 10/26, 11/2, 11/9, 11/16,

STEAM Learning Adventures

On Your Mark, Get Set ...

S.T.E.A.M.!

The learning continues—and the adventure gets even more exciting!

Start your engines and get ready for new challenges, new destinations, and new opportunities to create, build, and problem-solve with your STEAM Team! Your North American adventure continues as you buckle up, climb into your race car, and set off on another unforgettable journey filled with creativity, innovation, engineering, and discovery.

At each new destination, your team will take on an exciting challenge inspired by North America's iconic landmarks, events, cultures, and natural wonders. Design, build, test, and improve as you tackle fresh pit-stop missions that put your science, technology, engineering, art, and math skills to the test. Along the way, you'll think like inventors, collaborate like engineers, solve problems like scientists, and create like artists—all while working together to reach the finish line.

The destination may change, but the mission remains the same: **THINK. CREATE. BUILD. DISCOVER!**

All new activities and lessons!

Creative Movement and Dance

2026-27 After School Dance

North Shore Elementary

K-5th Grade Boys and Girls!

**SCAN TO
REGISTER!**

WEDNESDAY Jazz/Hip Hop 3:00-4:00

Jazz-Hip Hop is an exciting combination class that includes the traditional, more fluid Broadway style jazz technique with modern Hip Hop. Hip Hop, the most contemporary form of dance, helps develop strength, mobility, flexibility, rhythm, and safe body mechanics, and helps students dance confidently in a social atmosphere. As with all CMD programs, music and choreography are age appropriate.

Dress Code:

Jazz/Hip Hop- Dancers will dance in their school clothes- tennis shoes, ballet shoes, or jazz shoes are great for class!

MAD SCIENTIST CLUB

COURSE REGISTRATION FORM

NASA Academy of Future Explorers

Students will participate in 7 of the following exciting sessions

Atmosphere and Beyond

We're on a mission to explore the atmosphere on Earth, and beyond! Travel to the end of the rainbow and make a sunset! Mix up various planetary atmospheres, one molecule at a time! Discover how stars would look in space and see what makes stars twinkle using your very own Meteorological stations™.

Living in Space

Live the life of an astronaut as you suit up for space flight! Find out how much you would weigh if you lived on Pluto and how old you would be if you lived on Saturn. Participate in a space mission and make your very own Space Food to take home, hydrate, and enjoy!

Planets and Moons

Explore the farthest reaches of our solar system and create a lunar eclipse in this "mad" planetary tour! Learn how the planets stack up. Build and take home the Gravity Launcher™, a fun and educational 3-D magnetic satellite launch game!

Rocket Science

This is your chance to be a rocket scientist! Investigate the four forces of flight with the help of a Unique Flying Object! Explore the science involved in rocket construction as you build your own Straw Rocket that you can take home!

Space Phenomena

Probe the mysteries of meteors and bounce around satellite light in this phenomenal program on space events! See comets up close as one is formed before your eyes, and take home your very own James Webb Model Space Telescope™!

Space Technology

Discover technology designed for outer space! Steer a laser beam through a laser maze, find hidden mountains using the principles of radar technology and discover everyday objects originally designed for use in space! Take home a spacey stereoscopic viewer to see why two cameras are better than one!

Space Travel

Learn what it takes to be a true globetrotter! Race a balloon rocket and design your own car engine as you learn about thrust. See the principles of propulsion at work in a real rocket launch, and build your very own Shuttle Copter™ to fly to the skies!

Sun and Stars

This stellar program is your ticket to the stars! Watch star dust burn, and journey through a soapy galaxy as you investigate the life cycle of stars! Use your Cosmic Disc™ to create a constellation frisbee!

AFTER-SCHOOL BUILDING ADVENTURES

Snapology MONSTER MANIA

Build big ideas. Bring little monsters to life!

CREATE A MONSTER

BUILD A HAUNTED HOUSE

EXPLORE A MONSTER LAB

IMAGINE • BUILD • INVENT • SHARE

Welcome to Snapology's Monster Mania class, an electrifying adventure where children and young learners will embark on a spine-tingling journey into the realm of monsters using the magic of LEGO® bricks. This exhilarating program encourages participants to unleash their creativity and imaginations as they craft their own monstrous creations, assemble a spine-chilling haunted mansion, explore the mysteries of Frankenstein's lab, all while thrilling us with weekly showcases of their eerie inventions. Your student is sure to have a hauntingly good time!
