

Internship Completion Letter

Date: 1 Mar 2026

Ref #: AIL/DLINT/26/118

TO WHOM IT MAY CONCERN

This is to certify that **Durgesh Ramesh Hyalij**, a student of **SNJB's K.B. Jain College Of Engineering, Chandwad**, has successfully completed a professional internship at **AI Leela (OM Intelligence)**.

Internship Details:

- **Position:** Deep Learning with Full Stack Intern
- **Program:** Deep Learning Deep Dive with Full Stack Product Deployment
- **Duration:** 30 Dec 2025 to 28 Feb 2026

During this tenure, Durgesh has demonstrated exceptional commitment to mastering the infrastructure of the next generation of AI. The internship involved rigorous hands-on development on various tech stacks such as Python, JS, Docker, Ubuntu, Deep Learning & Generative AI. Durgesh also completed a capstone project exhibiting a Product-first mindset.

Key Learning Outcomes & Contributions:

- **Core Backend:** Rigorous and in-depth learning of Python through various programs and exercises.

- **Frontend:** Javascript with HTML & CSS. React introduction.
- **Product Development:** Building a micro product from scratch with a full stack approach with API driven development with deployment on ubuntu.
- **Project Excellence:** Successful completion of guided portfolio projects demonstrating industry-ready technical proficiency.
- **Gen AI:** Best practices on effective use of Gen AI tools with a wide range of tools from text, image, audio, video generation and code generation tools.
- **Deep Learning:** Foundational understanding of deep learning with different architectures.

Durgesh exhibited a strong technical aptitude, a collaborative spirit, and a deep-tech mindset throughout the program. We found Durgesh to be inquisitive, hardworking, and capable of handling complex AI integration tasks.

We wish Durgesh the very best in their journey toward becoming a leader in the AI-first world.

Warm regards,

Thank you.

Manas Gajare

Founder, CEO & CTO
