Ismail Ali Eskander Trading & Contracting Enterprise W.L.L

Ismail Ali Eskander Trading & Contracting Enterprises (ITCE), is one of the leading businesses in Qatar. Located in Doha, we provide a wide range of specialized products and services to the infrastructure sector throughout the Middle East and North African (MENA) region. All of our projects are supervised and executed by specialists - experienced and seasoned professionals who are all leaders in their fields.

We are a diversified corporate group delivering specialized products, engineering solutions, and consultancy services across infrastructure, industrial development, energy, technology, and lifestyle sectors. With a commitment to innovation, operational excellence, and sustainable development, we provide integrated solutions tailored to government, private sector, and institutional projects across regional and international markets.

Our core areas of expertise include city beautification, infrastructure development, road recycling technologies and consultancy, industrial solutions, AI technologies, oil & gas services, eco-energy and renewable energy solutions, as well as specialized construction and engineering services.

The Group also undertakes the planning, design, and development of public parks, themed destinations, landscape architecture, playgrounds, beach developments, club facilities, and African-style chalet projects. In addition, we supply advanced construction materials and systems, including cold asphalt permanent pothole repair materials, kitset aluminum telecommunication chambers, and glass fibre reinforced concrete (GFRC) architectural solutions.

Our capabilities further extend to MEP works, interior design, furniture and accessories supply, and specialized food & beverage service area design. Supporting the Group's operations is a dedicated media and marketing division focused on branding, communications, and strategic project promotion.

Through a multidisciplinary approach and strategic partnerships, we continue to deliver high-quality, future-oriented solutions that support sustainable growth and long-term value creation.

With our extensive infrastructure and skilled human resources we are able to focus on the individual projects that we manage, ensuring that we efficiently and effectively satisfy the needs and requirements of our customers.
