Tail status/Docking ban/Merle

Germany has a docking ban and no docked dogs may be exhibited! Please put a note on the entry form what tail status your dog has. Please also include if NBT how short! If your dog is a NBT you MUST attach a genetic test result that your dog is a natural bobtail with your entry. All dogs with a NBT have to be checked at the entry desk if the dog can start! In case of a NBT dog when viewed from the front at eye level, a lateral and dorsal tail movement should be visible. Only these NBTs are allowed to compete! You also must have a copy of the genetic test result that your dog is a natural bobtail **with you at the show ground! All Merle dogs need to have a genetic test showing their merle status or a proof of parentage (registration certificate and merle test from parents), which shows that the animal in question is descended from parents without the problematic trait. Please send this with your entry form! Dogs that are harlekin merle (Mh) need a certificate which shows that they can hear (certificate from normal vet) and see clearly (typical eye check by opthtalmologist is fine). Merles without Merle test or proof by parentage are NOT allowed**
